SERVICE CATALOGUE

Security

Strengthening enterprise security posture using Microsoft's security portfolio — from threat protection and SIEM through to zero-trust architecture and compliance. We assess, design, and deploy security controls tailored to your risk profile.

PROVEN

Security Posture Assessments

We evaluate your current security posture against Microsoft best-practice frameworks and deliver a prioritised remediation roadmap.

NOW

Microsoft 365 Defender Deployment

Deploy and configure Defender for email, endpoint, identity, and cloud apps to strengthen your threat protection.

Identity & Access Management (Entra ID)

Design and implement identity governance, conditional access, and privileged identity management with Microsoft Entra ID.

ASPIRE

Azure Sentinel SIEM & SOAR

We are building capability in Sentinel deployment, custom analytics, and automated incident response. Talk to us about your SIEM roadmap.

Zero-Trust Architecture Implementation

Full zero-trust transformations spanning identity, endpoints, networks, and data — scoped per engagement.

Compliance & Data Protection (Purview)

We are developing Purview-based compliance solutions for data classification, retention, and insider risk management.
